## I Specification Change Control Log

6/21 - First general issue to CLECs

Date	Section	Change
6/28	2.2.1	Reformatted unparsed CSR to be side by side for comparison of Legacy to expressTRAK Made updates and correction to unparsed CSR table of differences by jurisdiction.
	2.2.2	Replaced EDI expressTRAK parsed CSR's Added analysis table for both CORBA and EDI Reformatted all CSRs to be side by side for comparison of Legacy to expressTRAK
	2.2.3	FIDs - Added explanation of table and legend, removed duplicate entries from table
7/7	2.2.1	Updated unparsed CSR matrix with additional information. Changed phone numbers in matrix for consistency across all examples.
	3.2	Added statement about USOC collapse effect on products, flow-throughs and confirmations.
7/10	2.2.3.2	FIDs-Products table under revision.
7/12	All	Made footer fonts consistent.
	1.0	Changed Pre-order and Order impact from L to H, per CLECs feedback
	4.3.1.4	Added detail to bill title pages
7/17	2.2.1.1	Added detail to Matrix of Changes to Unparsed CSR by Jurisdiction
	2.2.3.2	FIDs-Products table revised
	4.4	Account Hierarchy revised - moved Res listings under Bus SBM
	5.4.1	Added Manual De-conversion process description
7/20	4.3.4.1	Added BARM to BOS request form sample
7/26	I	added CLEC Q&A
	II	Added Purpose of the Document
	1.0	Added note on pre-order and order impact assessment
	2.0. 3.0	Added explanation to pre-order and order impact statements, differentiating transitional and long term impact of conversion to expressTRAK.

## II CLEC Questions & Answers

Topic	Question	Answer	Spec Section
<b>Pre-Order</b>			
	How do you tell what listings are charged?	List provided in spec	2.2.1.1
	Where does RSID/TAR code appear?	Unparsed: TAR - end of 2 <sup>nd</sup> line, RSID not displayed; Parsed: RSID & TAR not displayed.	2.2.1.2
	Will info associated with left handed FIDs (address, TN, ALI, DL info) appear in Feature Detail field of parsed CSR?	No. Unparsed samples are provided, functionality for parsed scheduled for 8/19 - LSOG4 only	2.2.1.2
	Is CUSCODE included in eT BAN?	No	2.2.1.2
	Does BЛАCT on unparsed CSR contain SSN	SSN is not on CSR, BЛАCT is billing account no.	2.2.1.2
	Does unparsed CSR show add'l listings for Main Line, add'l line(s) or both?	Unparsed show add'l listings for both lines in eT & legacy	2.2.1.2
	Where is "BЛАCT" on the unparsed CSR?	Line 1, right side	2.2.1.2
	Is the CORBA IDL impacted in eT?	No impact, CORBA IDL same for Legacy/eT	2.2.2.2
	What is Address type is 1, address type is 2?	Type 1 is Service Address, type 2 is Listed Address	2.2.2.2
	How is eT parsed CSR distinguished from Legacy	With 10/21 release: the parseind field will be reused on outbound CSR with a Y (eT) or N (Legacy) value.	
	Will ALI code, Listing Address, Listed TN, LFID be included in eT? Parsed/unparsed/ both?	Yes	
	Does PSA show what is included in Custom Calling features packages	No	
<b>Billing</b>			
	Does the CLEC pay for 2 CDs while receiving Legacy & eT	No charge for expressTRAK copy until Legacy not needed	4.3.3
	Will the Simpleview format change	Yes, to match the new paper bill format	4.3.3
	How is the account structure set up and impacted in eT?	See diagram	4.4
<b>Conversion</b>			
	What is the percentage by state of the MDVW retail rollout	Approx. 75% total. WV-85%; VA-80%; MD-70%; DC-60%	5.2.1
	What are the Retail rollout plans	Plans are under development	5.2.1
	What accounts are in the CLEC Test Environment	7173037189-PA 7245980428 PA 7574730011-VA 7573910000-VA 8047925721-VA	5.3
	Do resellers have to track where an orders resides for UNE Platform	No	5.4
	What is the Manual de-conversion process	Described in spec	5.4.1
	When will the test Simpleview CD be available?	Under investigation	
	What is BA Disaster Recovery policy		5.5

### **III Purpose of this document**

This specifications document was prepared to help clarify the changes that occur as expressTRAK® is implemented throughout the Bell Atlantic region. It provides an explanation of expressTRAK®, the functionality it encompasses, and how it fits into the ordering and billing systems with which you are familiar. It also details how Bell Atlantic will work with you to ease the transition in to the new processes. This document will serve as one of the support mechanisms available to all CLECs in their planning and preparation for expressTRAK®. It is also the reference guide used in CLEC workshops and training sessions.

Until Telecom Industry Services (TIS) fully supports all Wholesale products to produce an expressTRAK® comprehensive Wholesale bill, there are interim processes you need to be aware of for ordering, and differences between CRIS and expressTRAK® in what you see in the Pre-ordering CSR Retrieval process.

## 1.0 Introduction

expressTRAK® is Bell Atlantic's new customer care, billing and ordering system. It is replacing the current billing system, CRIS, and its service order processors. With the deployment of expressTRAK®, the ordering and billing processes, formats and account structure will be standardized throughout the Bell Atlantic territory. The same functionality will be used for both Retail and Wholesale lines of business.

The ordering of Bell Atlantic products and services will be more consistent through a smaller standard set of USOCs. Also, internal Bell Atlantic processes associated with expressTRAK® are re-engineered, eliminating certain billing errors, such as Post Completion Discrepancies (PCD). There will be a new user friendly, English language bill in a 7 X 10 format.

The chart below summarizes degree of impact on the various functions.

Function	CLEC Impact
Pre-Order	H <sup>1</sup>
Order	H <sup>1</sup>
Billing	L to H – depends on current bill media
Trouble Repair	none
Maintenance	none
Change Control	none

<sup>1</sup> Note: For Pre-Order and Order, impact is stated as High due to transitional requirement while a CLEC is operating with both the Legacy and expressTRAK systems. Once fully implemented in expressTRAK, the end state will be similar to the current Legacy process.

## 2.0 Pre Order

### 2.1 Summary

Within Pre-order, Impact will be high during the transition period from Legacy to expressTRAK, when CLEC are operating with both systems. Once a CLEC is fully converted, the overall impact of expressTRAK® will be low, as processes will resemble those currently in the Legacy system. Impacts are to data only, and are described for each functionality in the sections that follow. No business rule or format changes will occur. The chart below summarizes impact for Pre order functions. Changes are described in detail in the sections that follow.

Pre Order Functionality	Bus Rules/ Format Change	Data
Parsed CSR Request	N	Y
Un-Parsed CSR Request	N	Y
Directory Listing Request	N	Y
Service Order Inquiry	N	Y
Product & Service Availability	N	Y
Address Validation	N	N
Telephone Number (TN) Reservation	N	N
Cancel TN Reservation	N	N
Loop Qualifications	N	N
Schedule Inquiry / Availability	N	N
Due Date Availability	N	N

## 2.2 Customer Service Request (CSR)

### 2.2.1 Unparsed CSR

This chart summarizes differences between the Legacy and expressTRAK® unparsed CSR.

Legacy	expressTRAK
Zip Code does not show in Legacy associated with Listed Name	Zip Code in the format DZIP is displayed in the Service Address Area
Does not have summary of TNs in heading	CSR has summary of TNs listed after Service Address
1FR or similar USOC would display for main line with ALN showing for each additional line	DTL USOC appears for every POTS Line, Associated FIDs are floated behind DTL
TN following USOC has spaces and dashes	TN following DTL has no spaces or delimiters
Features shown as FIDs following USOC with spaces e.g. 1MB TN \TBE B	Features formerly shown as FIDs appear in the USOC area with no spaces e.g. TBEB
Product rates displayed for all products <u>including</u> newly ordered products	Product rates displayed for all products <u>except</u> newly ordered products

### 2.2.1.1 Matrix of changes to Unparsed CSR by jurisdiction

The following exhibit summarizes unparsed CSR changes. The first column shows the content and order of the expressTRAK® unparsed CSR, which is standard across all jurisdictions. The remaining columns show the contents and order of the Legacy unparsed CSR by jurisdiction, for comparison purposes.

**Main Listing Left Handed FIDs**

LA – Listed Address

LN – Listed Name

LOC – Location

NLE – Non-Listed Name; Non-Chargeable

NLT – Non-Listed Name; Chargeable

NP3 – Non-Published Name; Non-Chargeable

NPU – Non-Published Name; Chargeable

Further definition is needed to describe what will be seen in expressTRAK® for the Listed Name.

Following the LN left handed FID and prior to start of the listing text a Listing Instruction Code (LIC) will be shown. Following are the LIC examples:

- (LN) = Listed in Directory
- (NLT) = NON-LIST Name, Chargeable
- (PVT) = NON-PUB
- (ADN) = Additional Non-List Listing
- (CR) = Cross Reference Listing
- (CPX) = Complex Listing
- (DNA) = Do Not Abbreviate
- (DNL) = Dual Name Listing
- (NON-DIR) = Non-Directory Name
- (OMC) = Omit Community
- (OAD) = Omit Address
- (OSD) = Omit in Secondary Directory
- (OMT) = Omit Telephone Number
- (PLA) = Position Listing As
- (SPL) = Special Listing Test
- (SPT) = Special Telephone Number Phrase
- (SPNL)= Special Non-List
- (SPNP) = Special Non-Pub
- (WPX) = White Page Exception
- (YPX) = Yellow Page Exception
- (( )) = Dual Name Listing (Two Names for Same Customer)
- (1), (2), etc. = Degree of Indention in Caption

**Address:**

- LA – Listed Address as it appears in the Directory
- SA – Service Address (address at which the service is working)
  - A Service Address on the CSR, even if it is the same as the Listed Address.
  - The DZIP is included in this area.
  - All telephone numbers on the account are listed after the Service Address.
  - There may be multiple Service Addresses.

**Additional Listing Left Handed FIDs:**

CLT - Additional Charges Listing  
EMG - Emergency Listing  
FAL - Foreign Listing – Business/Residence  
FLT - Additional Free Listing – Business/Residence  
SL - Secondary Listing – Business/Residence  
AD - Additional Listing

**Charged UNE Listing USOCs: (only apply to migrated listings, not to end user retail listings)**

D3L - Bus Additional Non-Pub Listing on Co-Carrier Account  
D3R - Res Additional Non-Pub Listing on Co-Carrier Account  
D4L - Bus Additional Non-List Listing on Co-Carrier Account  
D6L - Bus Additional Listing Listed on Co-Carrier Account  
D8R - Res Additional Listing Listed on CLEC Listings Account  
D9R - Res Additional Non-List Listing on CLEC Listings Account  
L4B - Main Business Listing on Co-Carrier Account  
L4R - Main Residence Listing on Co-Carrier Account  
L5B - Bus Main Non-List Listing on Co-Carrier Account  
L5R - Res Main Non-List Listing on Co-Carrier Account  
L8B - Bus Main Non-Pub Listing on Co-Carrier Account  
L8R - Res Main Non-Pub Listing on Co-Carrier Account

**Non-charged UNE listing USOCs:**

JYB - Business Main Listing on Co-Carrier Account - Not Charged  
J9B - Business Main NON-PUB Listing on Co-Carrier Account - Not Charged  
J4B - Business Main NON LIST listing on Co-Carrier Account - Not Charged  
J2B - Business Additional Listing on Co-Carrier Account - Not charged  
J5B - Business Additional NON-PUB Listing on Co-Carrier Account - Not Charged  
J3B - Business Additional NON LIST Listing on Co-Carrier Account - Not Charged  
JYR - Residence Main Listing on Co-Carrier Account - Not Charged  
J9R - Residence Main NON-PUB Listing on Co-Carrier Account - Not Charged  
J4R - Residence Main NON LIST Listing on Co-Carrier Account - Not Charged  
J2R - Residence Addition Listing on Co-Carrier Account - Not Charged  
J5R - Residence Additional NON-PUB Listing on Co-Carrier Account - Not Charged  
J3R - Residence Additional NON LIST Listing on Co-Carrier Account - Not Charged

**Products and Services (S&E)**

- The DTL (Dial Tone Line) USOC appears for each POTS line. The FIDs and data normally associated with the line USOC are floated behind the DTL.
- In addition to the DTL, a standard line USOC appears for each line. Additional line USOCs have been collapsed. Additional lines now have the same USOC as the main line.
- The TN following the DTL has no spaces or delimiters.
- The USOCs for Touch-Tone have been collapsed into one USOC. For example TDN is the USOC for Touch-Tone on all line types.
- Some features, formerly shown as FIDs following a USOC, appear in the USOC area with no spaces e.g. TBEA and BLKDA. See list in Section 2.2.3, page 41.
- The rates displayed on the expressTRAK™ CSR are as of the last bill date. Products added to an account after the last bill date have not been rated yet, and are shown as "NEW PRODUCT".
- At the time of Conversion "NEW PRODUCT" will be shown until the first bill date.

### **2.2.1.2 Examples of Unparsed CSRs**

## 2.2.2 Parsed CSR

### 2.2.2.1 CORBA

The following chart contains results of a comparison between comparable Residence Legacy and expressTRAK® CORBA Parsed CSRs. A comparison was also made between comparable Business Legacy and expressTRAK® CORBA Parsed CSRs. Except where specified, the differences were the same for both Residence and Business CSRs. For simplicity, the Residence sample data is used below to illustrate the differences. These differences are currently being investigated.

#### Analysis of Legacy vs. expressTRAK®:

Field	Legacy	expressTRAK	Difference
NAME (Residence only)	KPMG, PAPSC	Kpmg, Papsc	Legacy is all caps; expressTRAK is case sensitive.
LISTNM (Residence only)	KPMG, PAPSC	Kpmg, Papsc	Legacy is all caps; expressTRAK is case sensitive.
FEATURE DETAIL	PCA NC, 05-07-99	PCA NC PCA 05-10-00	Legacy returns NC and date on one line. expressTRAK breaks up into two lines.
SAST		PA	SAST is not returned in Legacy.
LAST		PA	LAST is not returned in Legacy.
LAZC	17011		LAZC is not returned in expressTRAK.
LALO	APT 18		LALO is not returned in expressTRAK.
Listed Address fields	CAMP HILL	Camp Hill	Legacy is all caps; expressTRAK is case sensitive.
